Tested Performance of Coating Film - Water Retention Test: 60 Days, conducted on February 20, 2022, using an in-house method at Nippon Paint's laboratory. Waterproof coating was applied on a cement tank with Fiber Mesh reinforcement. After water retention for 60 days, the coating film remained intact. - Superior Flexibility: Over 5 Times Stretchable. Tested on December 22, 2021, following ASTM D 412 (100R) at Chulalongkorn University Laboratory, Thailand. The coating film exhibited elongation up to 673.30%, demonstrating excellent elasticity. - Outstanding Solar Reflectivity: Up to 93%, tested on December 17, 2021, under its ISO standard at King Mongkut's University of Technology Thonburi, Thailand. - Certified Standards (as of 2024): TIS 2321-2564 Weather-resistant emulsion paint, TIS 2314-2564 Solar heat reflective emulsion paint, Energy Saving Label No. 5, THAI GREEN LABEL TGL-4-84-14 Durability Over 5 Years* (When applied according to Nippon Paint's recommended procedures)

NIPPON PAINT ROOFSEAL

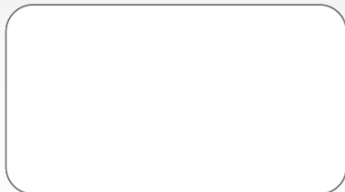

Exceptional Water Resistance
Proven Protection for
over 60 days*

Specially formulated to resist peeling and blistering, the durable coating film helps safeguard rooftops and terraces from persistent water seepage, delivering reliable, long-term performance.

POWERED BY FIBER STRENGTH TECHNOLOGY

Featuring fiberglass mesh-like reinforcement that enhances film strength and adhesion. Provides excellent durability and superior waterproofing with Nippon Paint Roofseal. Guaranteed 100% waterproof protection lasting over 5 years.*

Finely Woven Fiberglass Mesh
A reinforcement layer embedded within the paint film, this tightly aligned fiberglass mesh plays a key role in enhancing the overall performance of Nippon Paint Roofseal.

Maximize Performance For superior waterproofing durability, combine with **Nippon Paint Mesh Belt** designed to strengthen the surface and improve long-term adhesion

Available Sizes: 4 kg, 20 kg
Average Coverage Rate: 1–2 kg/m² (including primer and 2 coats)

*When applied according to Nippon Paint's recommended system.
