

## FEATURES

RP7 Multipurpose lubricant spray is mainly used in several types. Suitable for lubricating mechanisms i.e. levers, cables, brake axes, clutch mechanisms, bicycle chains, loosen the screw. It also provides protected film that reduces the chance of exposure to the cause of rust e.g. water and oxygen. RP7 It can also be used to prevent the jamming of metal workpieces. Including eliminating the moisture for electrical equipment such as spark plugs, battery terminals, and distributors.

- Lubricate mechanism
- Protect surface from corrosive or rust
- Prevents jamming of metal materials, reduces wear, noise.
- Expel moisture

## PRODUCT INFORMATION

Product type	Multipurpose lubricant
Colour	Yellow Transparent Liquid
Odor	Characteristic
Recommended substrate	Suitable for use on metal and hard plastic.
Pack size	150 g (211 mL) / 350 g (493 mL)

## TECHNICAL INFORMATION

State	Liquid under pressure
Specific gravity (25°C)	0.81
Inner Pressure (25°C)	43 psi
Propellant	LPG Propellant
Spray rate (25°C)	1.54 g/sec

## APPLICATION

How to use	Shake before use. Use only the diffuser to spray on large surfaces: for finishing use a soft rag. Use the long pipe for a precise lubrication and inflammable area. Do not spray near naked flame or source of heat.
------------	--

## HANDLING AND STORAGE

Storage condition	The product must be stored in a dry, well-ventilated area, and the container must be kept tightly closed at all times. Keep away from sources of heat, open flames, and any area exposed to direct sunlight or the elements. Do not store in areas where temperatures exceed 50°C (122°F). If temporary storage is required prior to transport or relocation, the product should be isolated with appropriate spacing from other materials. Do not store together with oxidizing agents, corrosive substances, or other flammable materials.
Shelf life	5 years at 30 - 35 °C

## SAFETY PRECAUTIONS

Precautionary notices are displayed on the container. Use product under well-ventilated area. During use, the product must keep away from the source of ignition and no smoking. Avoiding skin contact or inhale product. In case of contact with the eye, rinse with plenty of water immediately and seek medical advice. Remove splashes from the skin by using soap or water. For others information in terms of health and safety hazards for use of this product, please observe the Safety Data Sheet.

**DISCLAIMER**

Precautions are indicated on the product container. Use only in a well-ventilated area. Avoid contact with skin and inhalation of vapors. If the product comes into contact with skin, wash immediately with soap and water, and remove contaminated clothing. If the product gets into the eyes, rinse thoroughly with water and seek medical attention. Additional safety information is available in the Material Safety Data Sheet (MSDS).

**NOTE**

The data are average values for reference only. However, the actual value depends on environmental conditions.
