	(Dependent on the required area that is the paint will cover)	
Dry film thickness	30-40	microns
Touch dry (25-30°C)	5-10	mins
Hard dry (25-30°C)	40-50	mins

REFERENCE STANDARD

-

APPLICATION

Should shake the can before use for 1-2 minutes until the sound of the crystal ball inside the can clattering steadily. During spraying on substrate, product should be shake as well. For distance of spraying should be 30 centimeters far from substrate. After use, the spray nozzle should be cleaned by turning the can upside down and blowing out a little air to prevent clogging.

SURFACE PREPARATION

Metal

Surface must be dry and free from dirt, grease and other contaminants. Ferrous substrate should be sanded or wire-brushed to remove mill scales and rust. Clean off dust and dry.

Wood

Wood must be dry and free from dirt, grease and other contaminants. Smoothen surface with sand paper, then clean off and dry.

Other surfaces

Ensure that the surface is clean and dry it must be free from dirt, greases and other foreign matters.

PAINT SYSTEM

Primer for metal surface

Junior 99 spray in the primer color shade as per catalog for 1 coat.

Primer for wood surface

Junior 99 spray in the primer color shade as per catalog for 1 coat.

Top coat

Junior 99 spray for 2-3 coats.

Note: In case of vivid and intense color shade, a lighter shade is recommended to apply in the first coat for a good hiding result.

HANDLING AND STORAGE

Storage condition

The product must be stored in a dry, well-ventilated space and keep the container tightly closed. When transporting paint, the product should separately from others. Not recommended to place the product outdoor or exposed to the sun directly and must separately be stored between the heating resource and spark.

Precipitation

Place the product for a long time may lead the pigment to precipitate at the bottom of the container and can deteriorate over time when not shake to a homogeneous. Therefore, should shake the product to the homogeneous phase before use. If not, the product will cause paint problems e.g. low hiding power or non-equal color shade.

Shelf life at 30-35 °C

2 years

SAFETY PRECAUTIONS

Precautionary notices are displayed on the container. Use product under well-ventilated area. Avoiding skin contact or inhale product. In case of contact with the eye, rinse with plenty of water immediately and seek medical advice. Remove splashes from the skin by using soap or water.
