

FEATURES

RP7 Dry PTFE Lubricant features ultra-fine PTFE particles that form a long-lasting, dry film to significantly reduce friction on various surfaces, including metal, wood, rubber, plastic, and glass. Unlike standard lubricants, its dry formula prevents dirt buildup and resists water, moisture, and corrosion, making it ideal for clean, maintenance-free applications.

- Lubricates chains
- Lubricates frozen or stuck parts
- Reduces friction & wear & tear
- Does not stain
- Repels dirt, sand and dust pick up
- Safe to use on plastic & rubber

PRODUCT INFORMATION

Colour	Slightly Cloudy Liquid
Recommended substrate	Suitable for use on Drawers, doors, window tracks & hinges, Zipper, locks & latches, Rollers, chains, cogs & cables, Power tools and conveyor belts.
Limitations	Limited application on NBR, Chloroprene rubber, EPDM and butyl rubber.
Aerosol Can	150 g (249 mL)

TECHNICAL INFORMATION

Density	0.70±0.02 g/m ³
Flashpoint	< 0 °C

APPLICATION

1. Shake the can well before use.
 2. Allow the product to penetrate for at least 5 minutes.
- Note: If painting is required, clean the treated surface with mineral turpentine to remove any RP7 residue.

HANDLING AND STORAGE

Storage condition	The product must be stored in a dry, well-ventilated area, and the container must be kept tightly closed at all times. Keep away from sources of heat, open flames, and any area exposed to direct sunlight or the elements. Do not store in areas where temperatures exceed 50°C (122°F). If temporary storage is required prior to transport or relocation, the product should be isolated with appropriate spacing from other materials. Do not store together with oxidizing agents, corrosive substances, or other flammable materials.
Shelf life	36 months

SAFETY PRECAUTIONS

Precautionary notices are displayed on the container. Use product under well-ventilated area. During use, the product must keep away from the source of ignition and no smoking. Avoiding skin contact or inhale product. In case of contact with the eye, rinse with plenty of water immediately and seek medical advice. Remove splashes from the skin by using soap or water. For others information in terms of health and safety hazards for use of this product, please observe the Safety Data Sheet.

DISCLAIMER

Precautions are indicated on the product container. Use only in a well-ventilated area. Avoid contact with skin and inhalation of vapors. If the product comes into contact with skin, wash immediately with soap and water, and remove contaminated clothing. If the product gets into the eyes, rinse thoroughly

NOTE

with water and seek medical attention. Additional safety information is available in the Material Safety Data Sheet (MSDS).

The data are average values for reference only. However, the actual value depends on environmental conditions.
