

**FEATURES**

RP7 Heavy Duty Degreaser is engineered for tough industrial environments, delivering powerful cleaning performance on heavy machinery, automotive parts, and equipment components. Its mixed solvent formula quickly dissolves and removes stubborn contaminants like grease, cutting oil, carbon, dust, and sludge, ensuring thorough cleaning in even the most demanding conditions. With its fast evaporation and residue-free finish, this degreaser is ideal for maintaining the efficiency and longevity of critical industrial equipment.

- Removes oil, grease, dirt and grime
- Fast acting/work immediately
- Leaves no residue
- Degrease iron, steel, aluminium, magnesium, copper and rubber surfaces
- Dissolves and breaks down grease, no residue
- Industrial strength: tools, equipment, machinery, and engines

**PRODUCT INFORMATION**

Colour	Colourless Transparent Liquid
Recommended substrate	Suitable for use on power tools, engines, chains & gas machines, tyre rims, motorbikes, tractors and cars.
Limitations	Limited compatibility with Neoprene rubber, EPDM, Butyl rubber after 24 hours.
Aerosol Can	400 g (503 mL)

**TECHNICAL INFORMATION**

Density	0.785±0.020 g/m <sup>3</sup>
Flashpoint	< 0 °C
Pressure, 25 °C	0.8 MPa

**SURFACE PREPARATION**

Used for cleaning by spraying to remove dirt, grease, and other contaminants.

**APPLICATION**

1. Shake the can well before use.
  2. Use straw for a narrow spray and without for wide spray.
  3. Allow the product to penetrate for at least 5 minutes.
- Note: If painting is required, clean the treated surface with mineral turpentine to remove any RP7 residue.

**HANDLING AND STORAGE**

Storage condition	The product must be stored in a dry, well-ventilated area, and the container must be kept tightly closed at all times. Keep away from sources of heat, open flames, and any area exposed to direct sunlight or the elements. Do not store in areas where temperatures exceed 50°C (122°F). If temporary storage is required prior to transport or relocation, the product should be isolated with appropriate spacing from other materials. Do not store together with oxidizing agents, corrosive substances, or other flammable materials.
Shelf life	36 months

**SAFETY PRECAUTIONS**

Precautionary notices are displayed on the container. Use product under well-ventilated area. During use, the product must keep away from the source of ignition and no smoking. Avoiding skin contact or inhale product. In case of contact with the eye, rinse with plenty of water immediately and seek medical advice. Remove splashes from the skin by using soap or water. For others information in terms of health and safety hazards for use of this product, please observe the Safety Data Sheet.

**DISCLAIMER**

Precautions are indicated on the product container. Use only in a well-ventilated area. Avoid contact with skin and inhalation of vapors. If the product comes into contact with skin, wash immediately with soap and water, and remove contaminated clothing. If the product gets into the eyes, rinse thoroughly with water and seek medical attention. Additional safety information is available in the Material Safety Data Sheet (MSDS).

**NOTE**

The data are average values for reference only. However, the actual value depends on environmental conditions.
