

FEATURES

RP7 Silicone Lubricant is a versatile, fast-drying solution that reduces friction and enhances the durability of plastic and metal parts. Its residue-free formula excels in high-temperature environments, providing clean, dry lubrication without attracting dirt or causing buildup. Ideal for applications requiring precision and cleanliness, it protects against wear and tear, ensuring long-lasting performance across various surfaces and materials.

- Waterproofs & protects against moisture
- Displace water
- Lubricates moving parts
- Reduce friction & wear & tear
- Safe to use on plastic & rubber*
- Does not stain
- Resist/repel dirt, sand and dust pick-up/build up

PRODUCT INFORMATION

Colour	Colourless liquid
Recommended substrate	Suitable for use on Belts & conveyers, Bearings, guard rails & door runners, Linkages, doors & hinges, Tools, valves, locks & hoists, Car windows and door seals
Limitations	Don't use on substrates made by butyl rubber and chloroprene rubber
Aerosol Can	300 g (467 mL)

TECHNICAL INFORMATION

Density	0.77±0.02 g/m ³
Flashpoint	< 0 °C

APPLICATION

1. Shake the can well before use.
 2. Use straw for a narrow spray and without for wide spray.
 3. Allow the product to penetrate for at least 5 minutes.
- Note: If painting is required, clean the treated surface with mineral turpentine to remove any RP7 residue.

HANDLING AND STORAGE

Storage condition	The product must be stored in a dry, well-ventilated area, and the container must be kept tightly closed at all times. Keep away from sources of heat, open flames, and any area exposed to direct sunlight or the elements. Do not store in areas where temperatures exceed 50°C (122°F). If temporary storage is required prior to transport or relocation, the product should be isolated with appropriate spacing from other materials. Do not store together with oxidizing agents, corrosive substances, or other flammable materials.
Shelf life	36 months

SAFETY PRECAUTIONS

Precautionary notices are displayed on the container. Use product under well-ventilated area. During use, the product must keep away from the source of ignition and no smoking. Avoiding skin contact or inhale product. In case of contact with the eye, rinse with plenty of water immediately and seek medical advice. Remove splashes from the skin by using soap or water. For others information in terms of health and safety hazards for use of this product, please observe the Safety Data Sheet.

DISCLAIMER

Precautions are indicated on the product container. Use only in a well-ventilated area. Avoid contact with skin and inhalation of vapors. If the product comes into contact with skin, wash immediately with soap and water, and remove contaminated clothing. If the product gets into the eyes, rinse thoroughly with water and seek medical attention. Additional safety information is available in the Material Safety Data Sheet (MSDS).

NOTE

The data are average values for reference only. However, the actual value depends on environmental conditions.
